

Smoky Lake County Hay Permit Policy

On November 4, 2015 the Smoky Lake County Agricultural Service Board passed Policy Statement #62-08 "Hay Permits on County Right-of-Way." This policy provides a guideline for removal of hay within municipal right of way.

Rural residents are able to fill out a Hay Permit from Smoky Lake County allowing the haying of County right-of-ways. This permit is valid from **June 15th to August 1st** and must be submitted before **June 1st** of each year. This application is submitted with no charge from the county.

Filling out this permit will allow the Agricultural Services Department to coordinate their mowing and spraying programs in such a way that it will ensure the landowner has ample opportunity to cut the county ditch adjacent to their land before mowing or spraying commences.

For more information please contact the Smoky Lake County Agricultural Department at (780) 656-3730. Forms may be obtained online from the Smoky Lake County website and emailed or faxed into (780)656-3768, or are available at the County Office.
